

## Employment in Kosciusko County

**Good news** for the economy and the economic development effort in Kosciusko County in this last week's workforce data. It is a testimony to the strength of our businesses in this County who learned quickly how to adjust to the recession and position themselves for growth in a slow national recovery.

**Kosciusko County is now over 1000 jobs ahead of 2010.**

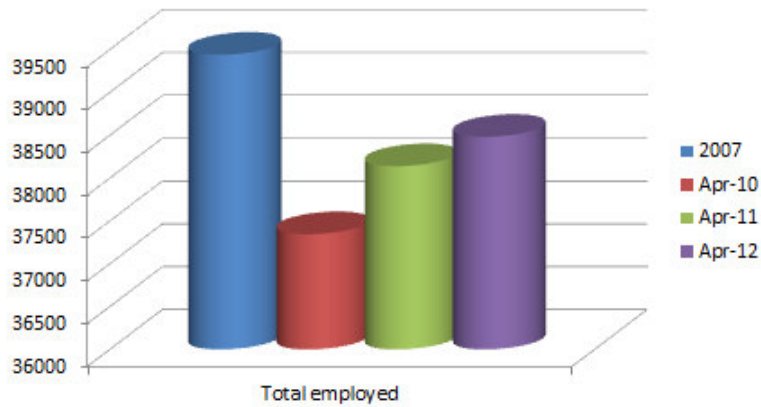

## Kosciusko County Jobs

It is also a testimony to the strength of the Indiana economy. In the release of the anemic national employment data with only 69,000 net new jobs created in America, **1 out of 8 of those were created in Indiana.**

But our work is far from complete. We have to still work with our companies and prospects to create another 1000 jobs to get back to 2007 pre-recessionary numbers.

## Kosciusko County Jobs

**Our unemployment rate** in Kosciusko County is now **back to 2008 levels**. KEDCO will continue to pursue programs that benefit our local employers and help create jobs in our County.
